United States of America

Department of Transportation -- Federal Aviation Administration

Supplemental Type Certificate

Number ST02841AT

This certificate issued to

Kruse Aerospace Corporation 1141 Dusk View Drive Merritt Island, FL, 32952

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations.

Original Product--Type Certificate Number: A10CE

Make: Learjet Model: 35A

Description of Type Design Change:

Installation of a lower pressure bulkhead penetration at FS 346.6 (Frame 15) and structural reinforcement in accordance with Kruse Aerospace Corporation (KAC) Drawing No. 200402, dated April 7, 2004, and DCN A1, dated April 17, 2004, or later FAA approved revision.

Limitations and Conditions: This STC is limited to S/N 611. "Instructions for Continued Airworthiness", KAC Report No. MK-2004-11, dated April 7, 2004, is a required part of this STC. The compatibility of this design change with other previously approved modifications must be determined by the installer. If the holder of this STC agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: April 01, 2004 Date reissued:

Date of issuance: April 19, 2004 Date amended:

By direction of the Administrator
